CAREER SUMMARY

Motivated and enthusiastic Computer Science Engineering (CSE) student with a strong foundation in Data Structures and Algorithms (DSA). Proficient in programming languages such as Java, Python, and JavaScript, with hands-on experience in developing responsive and user-friendly web applications. Adept at problem-solving, with a passion for continuous learning and improvement. Seeking opportunities to leverage my technical skills and contribute to innovative projects in a dynamic team environment.

SKILLS

- Programming Languages: Java, Python, JavaScript, React.js, SQL.
- Frontend Developer.
- Intermediate knowledge of Backend Development.
- Data Structures and Algorithms (DSA).
- Basic understanding of Computer Networks and Operating Systems.

STRENGTHS

- Quick learner with a strong passion for technology and coding.
- Excellent problem-solving abilities.
- Highly motivated and dedicated to continuous learning.
- Ability to work under pressure and meet deadlines.

EDUCATION

B.Tech in Computer Science and Engineering,
Walchand Institute of Technology, Solapur (Maharashtra),
Graduation Year (2026)
CGPA : 9.1(current)
12th(HSC (Maharashtra Board) | 80%(2022)
10th(SSC (Maharashtra Board) | 81.20%(2020)

PROJECT

❖ Portfolio Website :

Developed a personal portfolio website to showcase professional skills, projects, and achievements. The website serves as a digital resume.

- **Technologies Used :**
HTML, CSS, JavaScript, Bootstrap

❖ Currency Converter App:

Developed a responsive currency converter web application using HTML, CSS, and JavaScript. The application allows users to convert an amount from one currency to another using real-time exchange rates.

- **Technologies Used :**
HTML, CSS, JavaScript, Bootstrap

❖ News App :

Developed a responsive news application using React, leveraging RestFul APIs to fetch real-time updates. The app features various categories, including Entertainment, Science, Health, Technology, Sports, and Lifestyle, allowing users to easily navigate and filter articles. Implemented advanced search functionality, bookmarking options.

- **Technologies Used :**
HTML ,CSS, JavaScript,React.js, Bootstrap,

PROFESSIONAL ACCOMPLISHMENTS

- **Data Structures and Algorithms Proficiency:** Consistently solve daily problems on LeetCode and HackerRank related to data structures and algorithms, earning high scores and demonstrating my commitment to improving my problem-solving skills and coding proficiency.
- **Hackathon Participation:** Participated in Power BI Hackathon, where I collaborated with a team to developed skills in creating interactive dashboards, handling data from various sources, and generating insightful reports.
- **Workshop Participation:**
 1. **Hack: DID Blockchain Workshop:** Participated in the Hack: DID Blockchain Workshop organized by the Learning Out Loud Coding Club. Gained practical experience with blockchain technology, including understanding decentralized identities. Received a participation certificate upon completion.
 2. **Power BI Workshop:** Attended the Power BI Workshop conducted by the Learning Out Loud Coding Club. Learned how to utilize Power BI for data visualization and business intelligence. Developed skills in creating interactive dashboards, handling data from various sources, and generating insightful reports. Applied these skills to analyze datasets and present findings effectively.
